

February 1, 2010

Dear Mr. Stacey,

I am writing to you to express my support for the recent streamflow regulations on account of their importance for the maintenance and improvement of Connecticut's waterways and, more generally, the State's environment. I also ask that the current proposal for Class 4 streams be revised so that all waterways will be protected. We cannot afford to abandon even the dirtiest streams and rivers.

In my lifetime, we have made significant progress in this country in renewing and preserving our waterways, and I very much hope that my children will experience even cleaner waterways that can support life in all its abundance in this state.

I will be following this issue in the hopes that the DEP can realize meaningful environmental reforms in Connecticut.

Very Sincerely,

A handwritten signature in black ink, appearing to read "Zoe Cummings Resch".
